Total	1148	1149	0	1	
Margin of Error (1/2 of 1%)	5.74				
Final Results	Acceptable				

One ballot in Precinct 16B was not counted by the voting machines. The possibilities are that the machine pulled two ballots through without detecting it or the machine operator restarted the machine without having pulled the top ballot from the output stack to be re-read by the machine, after receiving an error message that a ballot was not read.

General Election Hand Count State Measure

County Name: Clackamas

Margin of Error (1/2 of 1%)	27.81				
Final Results	Acceptable				

Three additional ballots were tallied by the hand count board. The cause was possibly a tally machine operator who restarted the machine without having pulled out the appropriate ballots from the output stack to be re-read by the machine, after receiving an error message that a ballot was not read. The counting board determined that two over votes were yes votes because the voters had indicated their mis-markings.

General Election Hand Count State Measure

County Name: Jefferson
 Precinct/Ballot Count Batch Name(s): 011
 Date Hand Count Begun: 11/20/2008

One yes vote was actually an undervote. The machine read a damaged ballot as a yes vote. The hand count produced one more yes vote and one less no vote than the tally machine. Figure that it is the built-in tally machine enhancer that told the machine to read one ballot but have been unable to discern which ballot it is.
